Job for a job

They arranged for each other well-paid positions in research and science projects. Detained by the CBA, a director of the Warsaw Military Institute of Aviation Medicine (WIML) and an IT manager of Military Technical Academy (WAT) were brought corruption charges.

Continuation of multithreaded investigation conducted by the agents of the Regional Office of the CBA in Białystok and the local Appellate Prosecutor's Office. The Bureau examines threads of corrupt allocation of public funds to beneficiaries in exchange for bribes and positions. Already in December 2015 charges in this case were brought to three persons.

CBA agents detained in Warsaw the Director of the Warsaw Military Institute of Aviation Medicine and the Head of IT Department of the Military Technical Academy. Their offices were searched.

The findings of the officers of the CBA indicate that in the last year, IT manager leading the research project "exchanged" his contract of mandate with the head of another project, by what both of them assured each other the extra money. In other case the Director of WIML in exchange for granting the institute with order, within the framework of the research project, granted a financial benefit in the form of employment in managerial position to a person who had an impact on the granting of the order.

In carrying out of the case the CBA cooperated with the Military Gendarmerie. Both detainees stopped by the CBA were brought corruption charges in the Appellate Prosecutor's Office in Białystok. They were suspended from duty service.
