Letter of intent on cooperation between CBA and UMB

The Head of the CBA, Ms Agnieszka Kwiatkowska-Gurdak, and the Rector of the Medical University of Bialystok, Prof. Dr. Marcin Moniuszko, signed a letter of intent on cooperation.

Central Anti-Corruption Bureau and the Medical University of Bialystok will jointly undertake information and education initiatives. The cooperation will concern training, as well as developing and strengthening ethical attitudes among future university graduates.

During the meeting, the Rector of the University, Professor Marcin Moniuszko, emphasised that the training provided by CBA experts would allow all university employees to better understand the specifics of public procurement. These issues are important in the context of the acquisition of specialised equipment for ongoing research projects. He assured that Scientists and Doctors care about ensuring that public money spent on research brings the best results.

An efficient anti-corruption system is a constant educational activity aimed at various professional and social groups.
