

Verification of the tender for a utility helicopter

The analysis of tender procedures for the selection of the provider of utility helicopters for the Polish Army is in progress.

Due to media reports, the Central Anti-Corruption Bureau informs that a pre-control analysis of tender procedures for the selection of the provider of utility helicopters for the Polish Army is in progress. The contract was won by H225M Caracal, offered by Airbus Helicopters.

After the completion of the analysis, the CBA will institute control under its statutory competence.
