Another actions in the PIT-RADWAR investigation

Agents from the Gdańsk CBA Regional Office detained Łukasz M., an employee of one of the Wrocław-based electrical companies, which was a co-operator of PIT-RADWAR. The man handed bribes to the former employee of the company responsible for the orders. The officers conducting this investigation determined that the amount of bribes is at least tens of thousands of zlotys. The dealing lasted from 2010 to 2014. In September last year, the Gdańsk CBA detained a former employee of PIT-RADWAR. At that time, the prosecutor's office accused him.

The officers from Gdańsk searched the apartment of Łukasz M. There they secured electronic carriers. The detainee was transferred to the Regional Prosecutor's Office in Gdańsk and was charged for giving bribes.

In the investigation into corruption in PIT-RADWAR, agents from Gdańsk have already detained 10 persons. The case is developmental and we do not rule out further detentions.

Earlier, officers from the Regional Office of the CBA in Gdańsk, in cooperation with the Military Gendarmerie established that in one of the companies that make up the Polish Armaments Group - PIT RADWAR SA, corruption could have taken place. Specific suspicions concerned the process of purchasing machinery, equipment and parts to them executed by those employed in the logistics of this company.

The CBA has begun a special operation. As a result, agents of the CBA detained two logistic employees of the armaments company in Warsaw - a moment after accepting cash constituting an illegal commission for the purchase of parts. Detainees were charged with economic corruption in the Regional Prosecutor's Office in Gdańsk and were temporarily arrested by a court decision. The CBA found out that there could have been many such cases, and the dealing could have lasted for years.

Later, the CBA officers detained an entrepreneur who overstated the value of goods delivered to the company from the defense industry by a few percent commission, which after paying for invoices, transferred as a financial benefit to an employee of the company. Next, an employee of a defense company, a businessman working in the electronics industry and a former employee of an armaments company who was charged with corruption, were detained.
