The CBA has detained 3 individuals. Tender rigging at the GDDKiA (General Directorate for National Roads and Motorways)

The CBA officers from Warsaw have detected a tender collusion in the course of a call for tenders for warranty repair services of IT equipment, held by the General Directorate for National Roads and Motorways.

The entire documentation as well as the evidence indicate that during the course of the tenders the representatives of the General Directorate for National Roads and Motorways, who were responsible for the bidding, and the representatives of an international company colluded on the tender by prior determination of the method of tendering, so as to select only one of the contractors.

Two employees of the General Directorate for National Roads and Motorways from Warsaw and an employee of the international company, who was the contractor of the tendered service, have been presented with charges of tender collusion and abuse of power.

The CBA officers have searched the places of residence and the workplaces of the detainees.

The investigation has been carried out by the Regional Office of the Central Anti-Corruption Bureau in Warsaw under the supervision of the District Prosecutor's Office Warszawa - Praga.

The multi-threaded case is still in progress.
