

Drainage scandal - CBA searches 30 locations

30 locations searched, documentation and data storage devices secured. Almost 100 CBA officers are engaged in the action.

The officers of the CBA Regional Office in Szczecin have been investigating one of the threads in the so-called drainage scandal. In connection with this case, approximately 100 CBA officers are securing extensive evidence in almost 30 locations across the country, including numerous electronic data storage devices, which will be the subject of forensic analysis in the near future. The activities are being conducted at the Polish Football Association, 16 provincial football associations and a number of residences of natural persons and entities.

The National Prosecutor's Office in Szczecin is supervising the activities. So far, no allegations have been presented. The case is in progress.
