

Searches in several dozen locations

The officers of the CBA Regional Office in Łódź secured evidence in several dozen locations in Zachodniopomorskie, Mazowieckie and Łódzkie Voivodships.

At the same time, over 20 persons were questioned. The activities took place yesterday, by order of the Internal Affairs Division of the National Public Prosecutor's Office, which has been investigating the submission of a false asset declaration by a public official - a judge from the Łódź judicial district. The findings indicate that on 20 March 2020, the judge submitted an asset declaration for the year 2019, failing to disclose part of the income obtained from additional activities, i.e. providing legal advice. The evidence will now be analysed in the course of the ongoing pre-trial proceedings.
