

## Enhanced cooperation between anti-corruption authorities

---

On 14-15 September, more than 60 participants attended an international workshop entitled 'Regional cooperation and multidisciplinary approach in detecting, investigating and preventing corruption and fraud affecting the EU financial interests'. The meeting was organised by the Special Investigation Service of the Republic of Lithuania (STT).

The workshop was attended by representatives of anti-corruption, prosecution, and financial crime services from Poland, Lithuania, Latvia, Estonia and Austria. The CBA was represented by a delegation headed by Deputy Head of the CBA Daniel Karpeta.

The participants took part in 4-panel discussions. During the seminars, they introduced the developments and the best practices of the law enforcement agencies of the Baltic States' institutions and discussed the measures to be taken to effectively combat fraud and corruption across the EU.

The workshop was part of the project entitled 'Strengthening a multidisciplinary and regional approach in tackling corruption and fraud risks affecting EU financial interests', implemented under funding from the HERCULE III Programme (OLAF).
