ITC on EPE

International Training Center at the Europol's Platform for Experts (EPE)

At the beginning of the project the CBA decided to create an "International Training Center" for the participants who took part in the Training Conferences of the "Rising of Anticorruption Training System" as a useful platform of exchanging experiences and best practices in the scope of fight against corruption and corruption prevention.

On the International Training Center participants will find conference materials and presentations performed at the Training Conferences as well as they will have the chance to communicate with other participants on the platform in a secure way.

Access to Europol's Platform for Experts (EPE) is possible only for registered users accepted by Europol.
