New trends in computer forensics

On December 18-21, 2023, the last specialized training financed by the Norwegian Financing Mechanism 2014-2021 took place as part of the project led by the CBA. The training was devoted to new trends in computer forensics and had a form of workshops. Under the supervision of high-level experts with knowledge in the field of forensics, CBA officers expanded their competences and acquired new skills in data analysis, which will further translate into successes in ongoing investigations.

The training was carried out as part of the project "Strengthening the competences of law enforcement agencies and the justice system in the area of criminal and strategic analyses, supporting the process of recognizing, combating and preventing corruption and economic crime." The project is financed by the Norwegian Financial Mechanism 2014-2021 in the PA20 program area "International police cooperation and combating crime" in the "Internal Affairs" Program. The total value of the project is EUR 545,292.00, i.e. PLN 2,345,411.00
